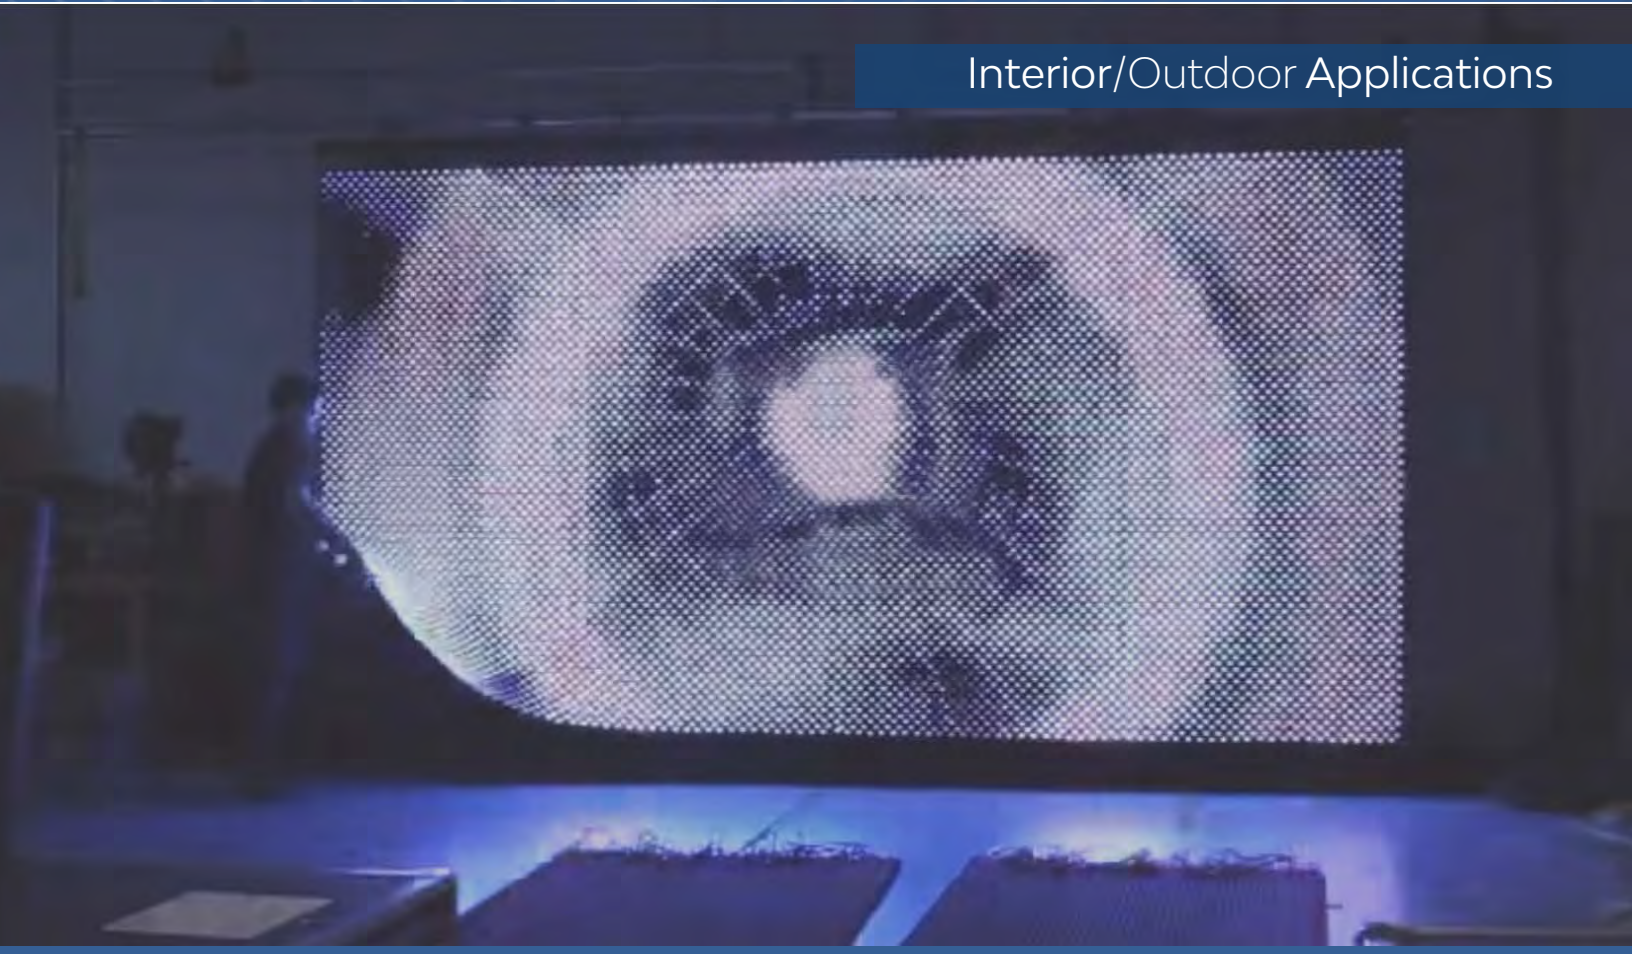
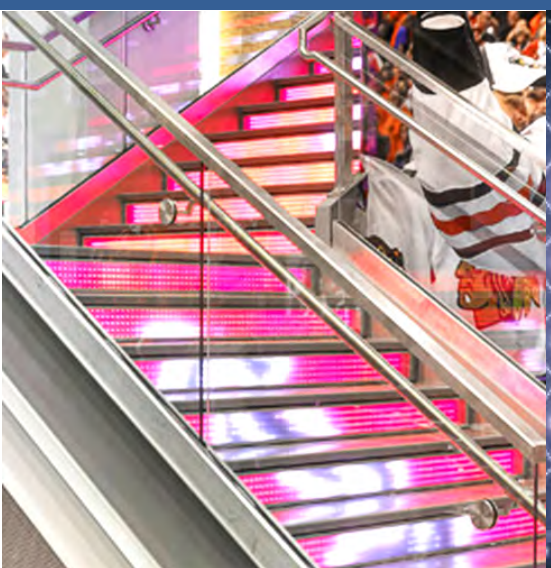
Interior/Outdoor Applications



Dynamic Messaging, Full-Motion Video, Graphics & Architectural Lighting



Constructed with aircraft cable and rugged plastic junctions for LED insertion. Connect segments with simple buckles.

Description:

EOS LightShow mesh displays use flexible, connected sheets of LEDs that can be wrapped, draped or folded into nearly any shape to create dynamic lighting or full-motion video. The displays are thin, lightweight, linkable, and easy to install, making them perfect for large-format applications. Available in different resolutions or densities to suit your unique purposes. Backed by a 5 Year Limited Warranty.

Properties:

IP66 | RGB | Flexible | Modular | Lightweight | c UL us LISTED

LightShow

Recommended applications include stadium walls, concert backdrops, outdoor displays & facades, overhangs, indoor retail signage and more.
